2026 Annual Compliance Trainings at the University of Utah

Annual regulatory lessons are mandatory for all employees and assigned at the beginning of the year. These lessons are crucial to ensure the University of Utah holds the safety of our patients and employees to the highest possible standards and are compliant with CMS, HIPAA, OSHA, and other regulatory services. They are also important for the University's continuing accreditation. Training courses are assigned according to your role.

Thank you for ensuring our organization maintains compliance.

Due March 16

After March 16, new employees will have 30 days to complete the required trainings

To complete your assigned trainings, log in to LearningHub via CIS or https://learninghub.utah.edu/
